EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Matthew Dennehy on 02-09-2007.

The application has been amended as follows:

In the claims:

Claim 1, line 7, change "crown" to --corner--.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Replacement drawings will be filed which are similar to the drawings filed 01-19-2004 which show the upper girdle facets being five-sided polygons. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

3. The following is an examiner's statement of reasons for allowance: Regarding claim 1, previously applied Schachter (US#D340670) in view of Friedman et al. (US#6430963) discloses the new limitations of the crown including a n-sided (8) table, n (8) upper girdle facets, and n (8) upper corner facets, and wherein the upper corner facets are three-sided polygons. However, Schachter in view of Friedman discloses the upper girdle facets as four-sided polygons as

opposed to five-sided polygons as claimed by the applicant. The applicant's five-sided polygon arrangement for the upper girdle facets provides the claimed spacing between the upper corner facets and the girdle. There is no motivation to further modify Schachter in view of Friedman such that the upper girdle facets are five-sided polygons.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
